**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 25-40 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 25, the prior art fails to disclose or make obvious a method for classifying anomalies of a surface of a sample of material suitable for use as a storage, display or electronic device having the steps of processing the information using a first threshold to provide a first output; processing the information using a second threshold different from the first threshold to provide a second output, wherein the information processed using the first threshold and the information processed using the second threshold are substantially the same; and analyzing the outputs and classifying the anomalies in at least one classification, and in combination with the other recited limitations of claim 25. Claims 26-40 are allowed by the virtue of dependency on the allowed claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
